Fuels Refinery B2626
90-day Release Event Report
Episode ID #07D21

Mr. Wayne Kino
Director of Compliance and Enforcement
Bay Area Air Quality Management District
375 Beale Street, Suite 600
San Francisco, CA 94105

Dear Mr. Kino:

Pursuant to BAAQMD Regulation 8, Rule 28-304.1, a 90-day report is enclosed for Episode ID #07D21.

Background

On May 5, 2017, the Valero Benicia Refinery experienced a sudden, immediate, and total loss of PG&E 230 kV power that resulted in the immediate and unplanned shutdown of the entire refinery. This event resulted in 2 atmospheric safety valves (SV-106A/B) on the crude unit lifting to atmosphere. Valero immediately reported the incident (BAAQMD Incident Report No. 07D21), submitted the required 30-day report and hereby submits the required 90-day report.

Please note that the attached report contains information that the Valero Refinery considers to be trade secret and confidential business information (CBI) as defined by the California Public Records Act, Government Code § 6254.7 et seq., and the Freedom of Information Act, 40 CFR Part 2 (40 CFR § 2.105(a)(4)), 5 USC 552(b)(4), and 18 USC 1905. Because of the sensitive and competitive nature of this information, the Valero Refinery requests that the District afford the information CBI status and treatment indefinitely.

Mr. Wayne Kino, BAAQMD
